PROFESSIONAL PROFILE

Junior Programmer with hands-on experience in web development, game prototyping and real-time 3D visualization. Solid foundation in C++, C# and modern web technologies (JavaScript, TypeScript, Three.js), with a problem-solving mindset and a focus on clean, maintainable code. Built an interactive 3D configurator during an internship and delivered several game projects in Unity and Unreal Engine. Comfortable in multidisciplinary teams, bridging designers, programmers and artists.

WORK EXPERIENCE

• Web Developer (Internship)

Studio Evil (Bologna, Italy)

Jun 2026 – Aug 2026

- Studied the Three.js library and applied it to real-time 3D visualization in the browser
- Developed and optimized an interactive 3D configurator tool
- Designed and built a business website presenting the configurator

• Unreal Game Programmer (Internship)

PowerUp (Bologna, Italy)

Jun 2025 – Sep 2025

- Built the Unreal Engine prototype of a game project submitted to Creative Europe
- Implemented and iterated on gameplay features and contributed to the game's design
- Produced the promotional trailer presenting the prototype
- Researched and applied new tools and development techniques

• Web Developer & Designer (Internship)

JORINF (Coimbra, Portugal)

Feb 2023

- Designed and developed the company website, covering both visual design and implementation
- Analyzed database management systems and data-handling practices
- Studied technologies used in financial data processing
